YEAR OF GROUNDING SPIRITUALITY

I come again My Beloveds, standing with my Twin Flame the Lady of Gold, to bring you another chapter of this your year of 2009. Thus far you have been affected by:

January 2009 – a month of Base Chakra joining Base Chakra
February 2009 – a month of Base Chakra joining Sacral Chakra
March 2009 – a month of Base Chakra joining Solar Plexus Chakra
April 2009 – a month of Base Chakra joining Heart chakra
May 2009 – a month of Base Chakra joining Throat Chakra
June 2009 – a month of Base Chakra joining Third Eye Chakra

Let us continue

July, Base meeting Crown - Grounding your Wisdom

This month will have a focus of you becoming aware that you do not necessarily hold all the wisdom of the Universe within the confines of your head; nevertheless, you do have access to any and all *Wisdom*, for it belongs to no-*one*, you have been deemed to obtain this information by your act of reincarnation. By grounding your faith in your ability to seek and readily receive transmission through your Crown Chakra there is no limit to your receiving of information from the Angelic or the Ascended Realms. The main concept which hinders your abilities here is the limitation (fear) of the third dimension and the misinterpretation that you are less than. Knowing that over a period of many (past) lives the majority of humanity has gained much knowledge should therefore reinforce the fact that you are indeed capable and worthy. Once you can accept your own power, that you are magnificent, what then stands in the way is forever banished – is it not? Some may continue to stand in their own recycling of anxiety and doubt, leading to much stress and trauma of third dimensional happenings. Others will choose to know they are upon their Ascension Pathway, acknowledging they are returning home and embracing the love that is constantly poured down upon them. Headache and stress related dis-ease will be manifested by those who so choose the former route. Seeking assistance from El Morya for Esoteric Information and Expansion of Self Awareness. Lady Mary will come to your aid as always in the important continuance of your Communication. Lady Chirina will bring you a measure of Lateral Thinking with her Vibration. Seeking the help of The Angels of Knowledge, Connection, and Highest Purpose, will reinforce your grounding this month.

August, Base connecting with 8th-Seat of the Soul - Grounding your Soul Connection

A pivotal point in this your year of 2009. Soul Guidance can never be anything but uplifting and liberating, allowing this to strengthen your resolve this month and seek connections with Soul Group Members and beyond. Once you begin to 'Listen and Respond' to Soul Guidance you are naturally reinforcing your spiritual platform for higher dimensional/service work. All are called in this fashion, so actively seeking the guidance of your Birth Masters and/or information gained through the Archangel

Metatron whilst within your Personal Merkabar, as to Soul Purpose and the enactment of same will be of great benefit. Those not connected or believing they have such skills and information may well feel alone and overlooked, some may even feel there is no purpose or direction – this can never be. The Lady of Gold will assist with your reaching up to connect with and understand Soul and the onward journey of your Service. I myself, the Lord Buddha (upon request) will bring forth a measure of Spiritual understanding and resultant Growth for you. Master Hilarion together with Lady Quan Yin will assist your journey with Self Analysis and Compassion. The Angels of Soul Connection and Ascension will be at your side constantly this month. It is imperative that you remain grounded and physically active during this period to strengthen your spiritual platform.

September, Base connecting with 9th --Body of Light - Grounding your Joy

Reach up now My Beloveds and embrace the Joy of your Body of Light (Spirit Body), it is within your reconnection here that you will receive much embracing of your true 'Lightness' of the Soul and the resultant banishment of despair, aloneness and/or isolation. Again I say, all this is based upon the fear of third dimension and your illusion of separateness. If you will consider what brings *JOY* into your life, for you all have this ability, then work actively to expand this within your life. Think how enriching this would be. I know that some would say they have never felt Joy. I say to you this is not so, for the moment you accept any Angel or Ascended Master into your life – there is *JOY*. You only have to accept. Lady Mary now resides upon the 9th Ray which is attached to your 9th Chakra, and she will willingly be of service to you during this time. Lord Ling who is known as the Lord of 'Happiness' will naturally come forth upon request. Paul the Venetian will broaden your perspective on the words Joy and Happiness, so that you appreciate that which is beyond the third dimension. The Angels of Spiritual Light, Security, and Illumination, will also gladly come forth to assist whilst you make connection and endeavour to ground your Joy.

So, My Dear Ones, I now say to you waste no time, for this grounding of Wisdom, Soul and Joy is imperative, an embracing of the True Spirit that we can see, and that which you must discover and enact whilst in the third dimension, it is part of your response to natural growth with spirit. Be most especially aware during these three months of those around you who would appear to glow or hold a vibration of luminosity – for they have truly connected with Wisdom, Soul and Joy. They are amongst you; they walk, eat, sleep and breathe just as you do, they face the same vibrations as you, the difference being - a grounding and acceptance of their place within the 'Bigger Picture'.

Walk forward with assistance and confidence. Walk forward to meet the *SELF*.
